

COM GRANTS

Eligibility:

- Full-time faculty members (including VA appointments) of the College of Medicine who are at the rank of instructor or above.
- Fellows, postdocs and individuals in temporary positions are not eligible.
- Recipients may hold only one COM intramural grant at a time.
- Eligible faculty members may submit only one application per deadline on which they are PI.

Intramural Grant	Contact	Funding Amount	# Awarded Per Year	Description	Application Process
Pilot Study Grant program	Charlotte Hobbs, COM Research Council	\$25,000 max	Varies, Funds provided by Barton Endowment	<p>To provide seed money to initiate a project and acquire the necessary preliminary data for submission of a major extramural grant application to a federal agency or national foundation.</p> <p>Collaborative efforts are encouraged such that investigators may apply for individual awards and the resources from these awards pooled to support new, joint research efforts. In this case, the unique contributions of each applicant to the collaboration must be made clear and the requirement for more than one grant to support the effort justified. Collaborative applications should be explicitly identified in the abstract. Collaborative applications with substantially identical research plans will not be reviewed.</p>	<p>Due Date: October 1 or April 1</p> <p>pilot review form</p>
Bridging/Interim Funding Program	Charlotte Hobbs, COM Research Council	\$45,000 max	Varies, Funds provided by Barton endowment	<p>To minimize the adverse effects of a lapse in funding by providing productive scientists with temporary funding.</p> <p>Support for PI salaries, graduate student salaries and travel may not be requested. Key research assistant/associates salaries are allowed, as well as supplies to conduct the research.</p>	<p>Ongoing, need-based application cycle</p> <p>Progress report</p>
Equipment Grant	Charlotte Hobbs, COM Research Council	Max of \$30,000	Varies	<p>To provide a mechanism for researchers in the College of Medicine to obtain relatively small pieces of research equipment for shared use.</p> <p>Proposals can be for either total or partial funding.</p>	<p>Applications accepted from groups of two or more full-time faculty members in the College of Medicine with one member designated PI.</p>
Sturgis Grant for Diabetes Research	Paul Stover, Charlotte Hobbs	Max: \$25,000 for 8 month research project	4-7 Depends on funding amount from Sturgis Foundation	<p>To provide short-term (8 months) funding for research on diabetes or the complications of diabetes funded on an annual basis by the Sturgis Foundation.</p>	<p>Opportunity Announcement: December Application Deadline: Early January Project start: Early February Project end: End of September Project Results Report Due: Early October</p>
Hornik Endowment for Research into	Charlotte Hobbs, COM	Max: \$50,000 per year for up to 2 years.	Typically 1	<p>To promote research into the causes, prevention, and treatment of stroke and related disorders.</p> <p>Hornick funds can be used to:</p>	<p>Due Date: October 1 or April 1</p> <p>--Results by letter within 4-6 weeks of submission</p>

Stroke and Related Disorders	Research Council			<ol style="list-style-type: none">1) Initiate research into new areas that are currently not funded extramurally.2) Support student research under the supervision of an established investigator.3) Increase productivity in a currently funded program that has a high potential for scientific or medical impact. <p>High quality proposal submitted to, but not funded by the Hornick Endowment will automatically be considered for Pilot Study Funding.</p>	Full Instructions Hornick
