

Department: UAMS Institutional Review Board
Policy Number: 7.2
Section: Procedures for Study Review
Effective Date: July 31, 2002
Revision Date: May 7, 2004

SUBJECT: Investigator and Sub-Investigator Qualifications

1. All human subjects research that is conducted by or under the direction of any employee, faculty, staff, student or agent of University of Arkansas for Medical Sciences in connection with his or her institutional responsibilities must be reviewed by the IRB.
2. **Student Conducted Research.** All activities that meet the definition of research with human subjects and that are conducted by students for a class project or for work toward a degree must be reviewed by the IRB. Resident physicians are considered students. For example, activities that must be reviewed and approved by the IRB include:
 - a. All master's theses and doctoral dissertations that involve human subjects; and
 - b. All projects that involve human subjects and for which findings may be published or otherwise disseminated.
 - c. **Oversight by Faculty/Advisor.** All students/fellows residents in UAMS applying as PI on a study for IRB review must list their faculty advisor as a co-investigator.
3. **Conflict of Interest.** The protection of human subjects requires objectivity in communicating risks, selecting subjects, promoting informed consent, and gathering, analyzing and reporting data. Therefore, the IRB Committees should consider conflict of interest issues in their deliberations of applications.
 - a. All investigators must reveal on their application to the IRB whether they or any other person responsible for the design, conduct, or reporting of the research has an economic interest in, or acts as an officer or a director of any outside entity whose financial interests would reasonably appear to be affected by, the research.
 - b. When appropriate, the informed consent document should state that all clinical investigators are required to comply with University of Arkansas for Medical Sciences' Conflict of Interest Guidelines or an affiliate institutional policy (see IRB policy 3.3).
