UAMS Showcase of Medical Discoveries

Advancing UAMS Research: The Postdoctoral Engine of Innovation

Apr. 1, 2026 | 4:00 - 6:00 PM | 10th Floor, Cancer Institute Rotunda

OT Program Research Updates: Three 2026 Publications from Dr. Rider's National & International Collaborations

Current and recent postdoctoral fellows are central to advancing UAMS's research mission—driving discovery, strengthening interdisciplinary collaboration, and contributing substantially to our institution's scholarly output.

This showcase, titled "Advancing UAMS Research: The Postdoctoral Engine of Innovation," highlights the depth and impact of postdoctoral scholarship across the university. It provides a valuable opportunity to engage with colleagues whose work is shaping the future of biomedical science.

Please join us to learn about the discoveries and contributions emerging from our vibrant postdoctoral community.

Funding Opportunities

TRI Early-Career Faculty Applications for Path 2 K Grant Writing Program

The Translational Research Institute (TRI) invites applications from early-career faculty interested in submitting a career development application to NIH in October 2026 or February 2027 to participate in the Path 2 K program. This grant-writing program offers early-career faculty members 6 months of structured activities focused on specific steps in the application process for an NIH Career ("K") Development grant (e.g., K99/R00, K01, K08, K23). This includes brief workshops about specific components of a K grant, individualized support, and many key resources/templates, including previously funded K awards.

Application Due Date: April 1, 2026

Apply to the program or learn more: <https://tri.uams.edu/training/training-opportunities/path-2-k-program/>.

Center for Molecular Interactions in Cancer (CMIC)

Request for Applications: Pilot Projects

The objective of the Center for Molecular Interactions in Cancer (CMIC) is to use structural biology and quantitative biophysical approaches to conduct research aimed at understanding the molecular features of cancer, including initiation, progression, and treatment.

The CMIC Pilot Project Program provides up to \$75,000 in direct costs for 1 year of support of basic or translational research projects that match the focus of the center.

Submission Deadline: May 1, 2026
